

# **TTANGO STI Point-of-Care Testing Program Report**

Month of Issue: July 2024

For more information contact [ttango2@flinders.edu.au](mailto:ttango2@flinders.edu.au)

## Contents

1.	Number of current operational sites in each jurisdiction, Q3 2022 – Q2 2024 .....	2
2.	Cumulative CT/NG/TV POC patient tests over time, Q1 2016 – Q2 2024 .....	3
3.	Overview of STI POC patient testing from Q3 2020 – Q2 2024.....	4
a)	Number of STI POC patient tests per month by age group, Q3 2020 – Q2 2024.....	4
b)	Number of STI POC patient tests per month by state/territory, Q3 2020 – Q2 2024.....	5
c)	Proportion of STI POC patient tests per month by Aboriginal and Torres Strait Islander status, Q3 2020 – Q2 2024 .....	6
d)	Number of STI POC patient tests per month by gender, Q3 2020 – Q2 2024 .....	7
4.	Overview of STI POC patient test positivity for Q2 2023 to Q2 2024.....	8
a)	Overall CT/NG/TV POC test positivity, Q2 2023 – Q2 2024 .....	8
b)	CT/NG/TV POC test positivity by Gender, Q2 2023 – Q2 2024.....	9
c)	CT/NG/TV POC test positivity by Age, Q2 2023 – Q2 2024 .....	10
d)	CT/NG/TV POC test positivity by Remoteness, Q2 2023 – Q2 2024.....	11

# TTANGO STI Point-of-Care Testing Program Report

July 2024

## 1. Number of current operational sites in each jurisdiction, Q3 2022 – Q2 2024

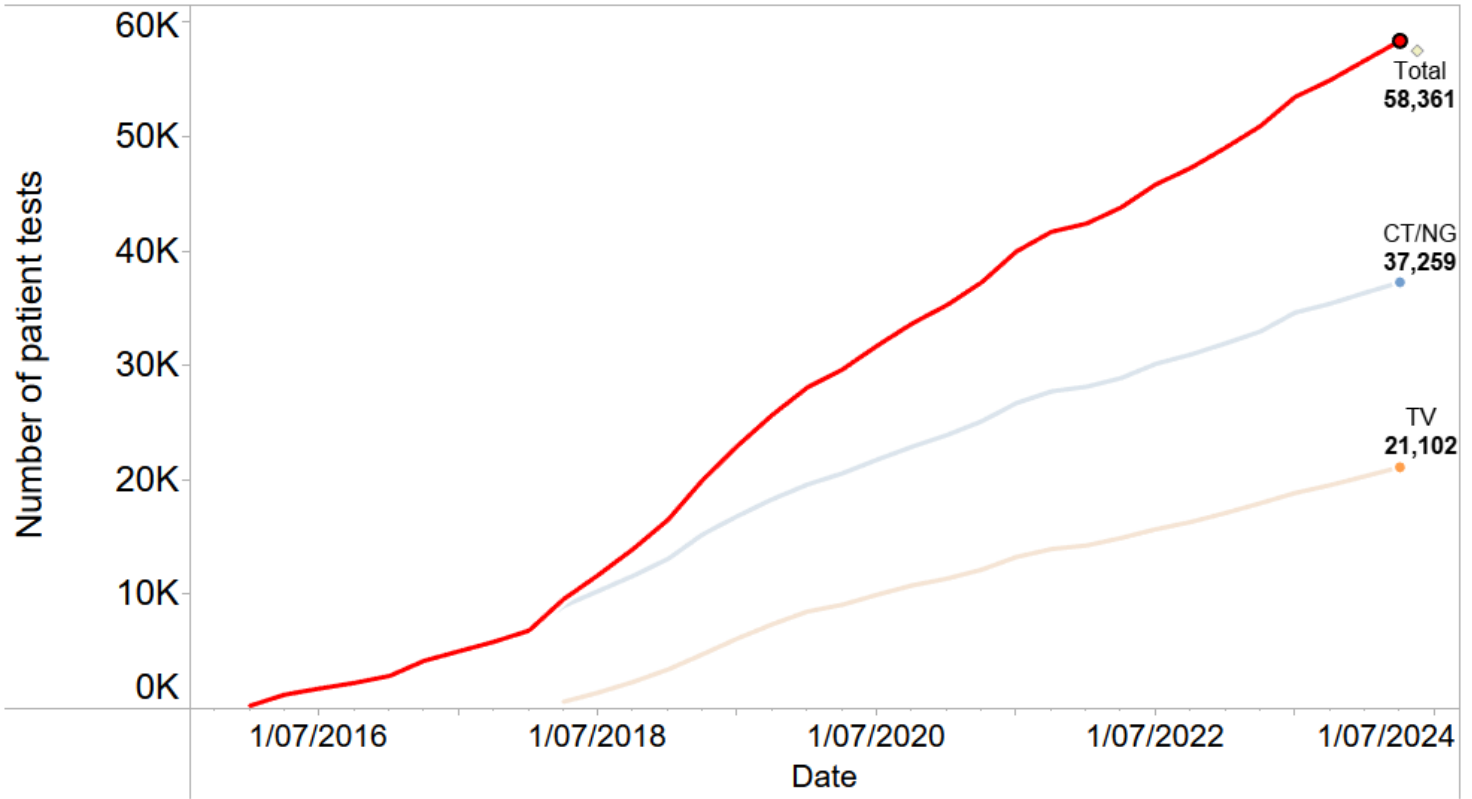

# TTANGO STI Point-of-Care Testing Program Report

July 2024

## 2. Cumulative CT/NG/TV POC patient tests over time, Q1 2016 – Q2 2024

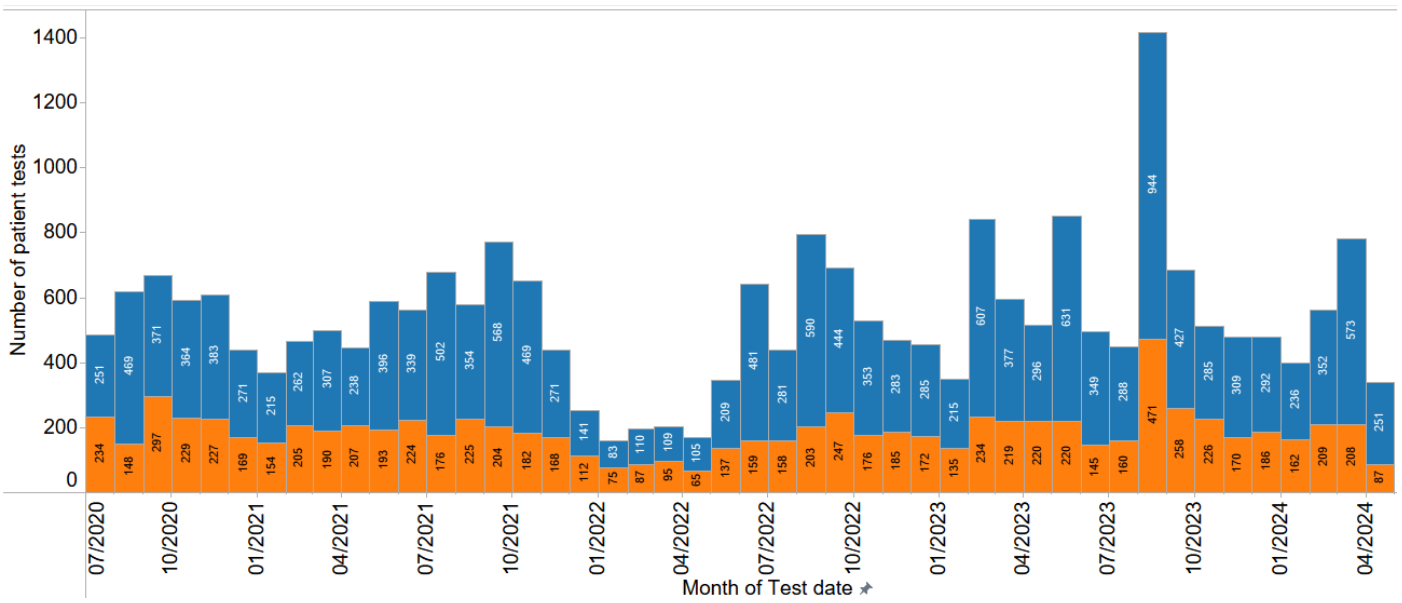

# TTANGO STI Point-of-Care Testing Program Report

July 2024

## 3. Overview of STI POC patient testing from Q3 2020 – Q2 2024

### a) Number of STI POC patient tests per month by age group, Q3 2020 – Q2 2024

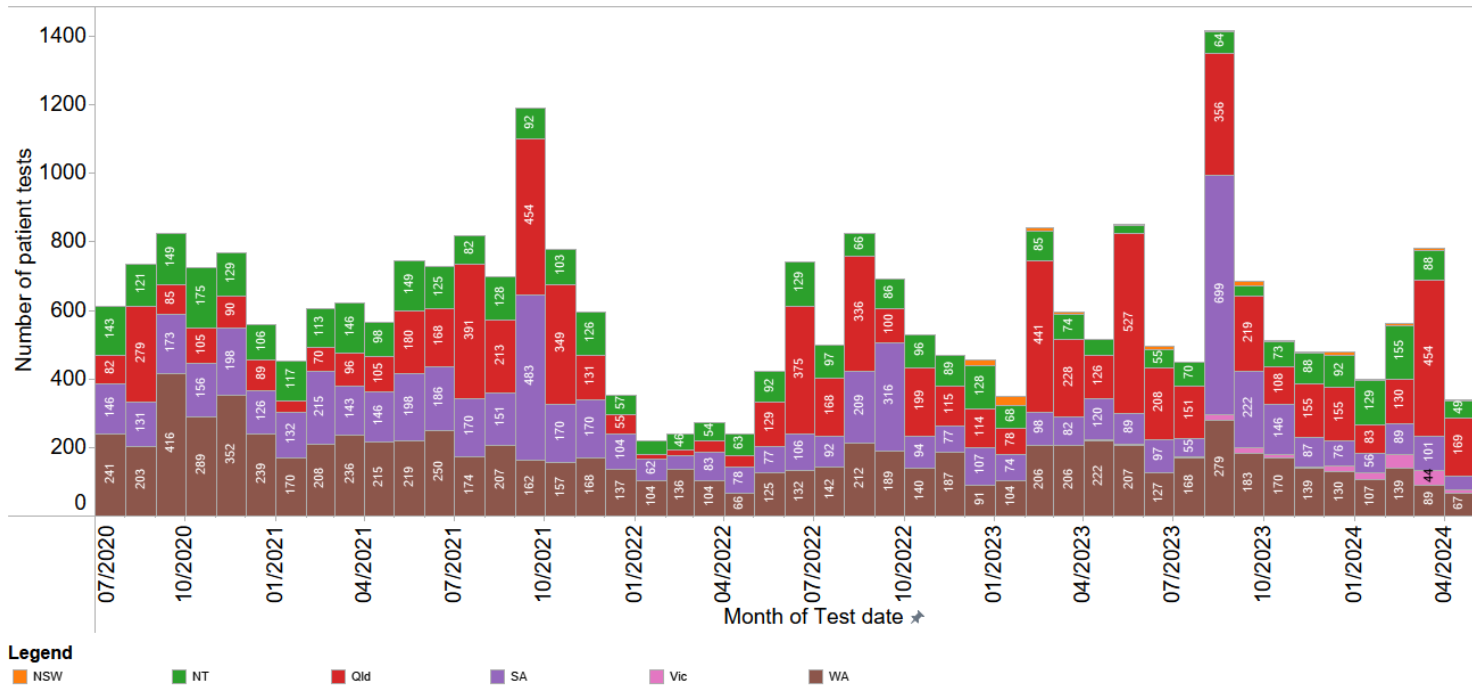

# TTANGO STI Point-of-Care Testing Program Report

July 2024

**b) Number of STI POC patient tests per month by state/territory, Q3 2020 – Q2 2024**

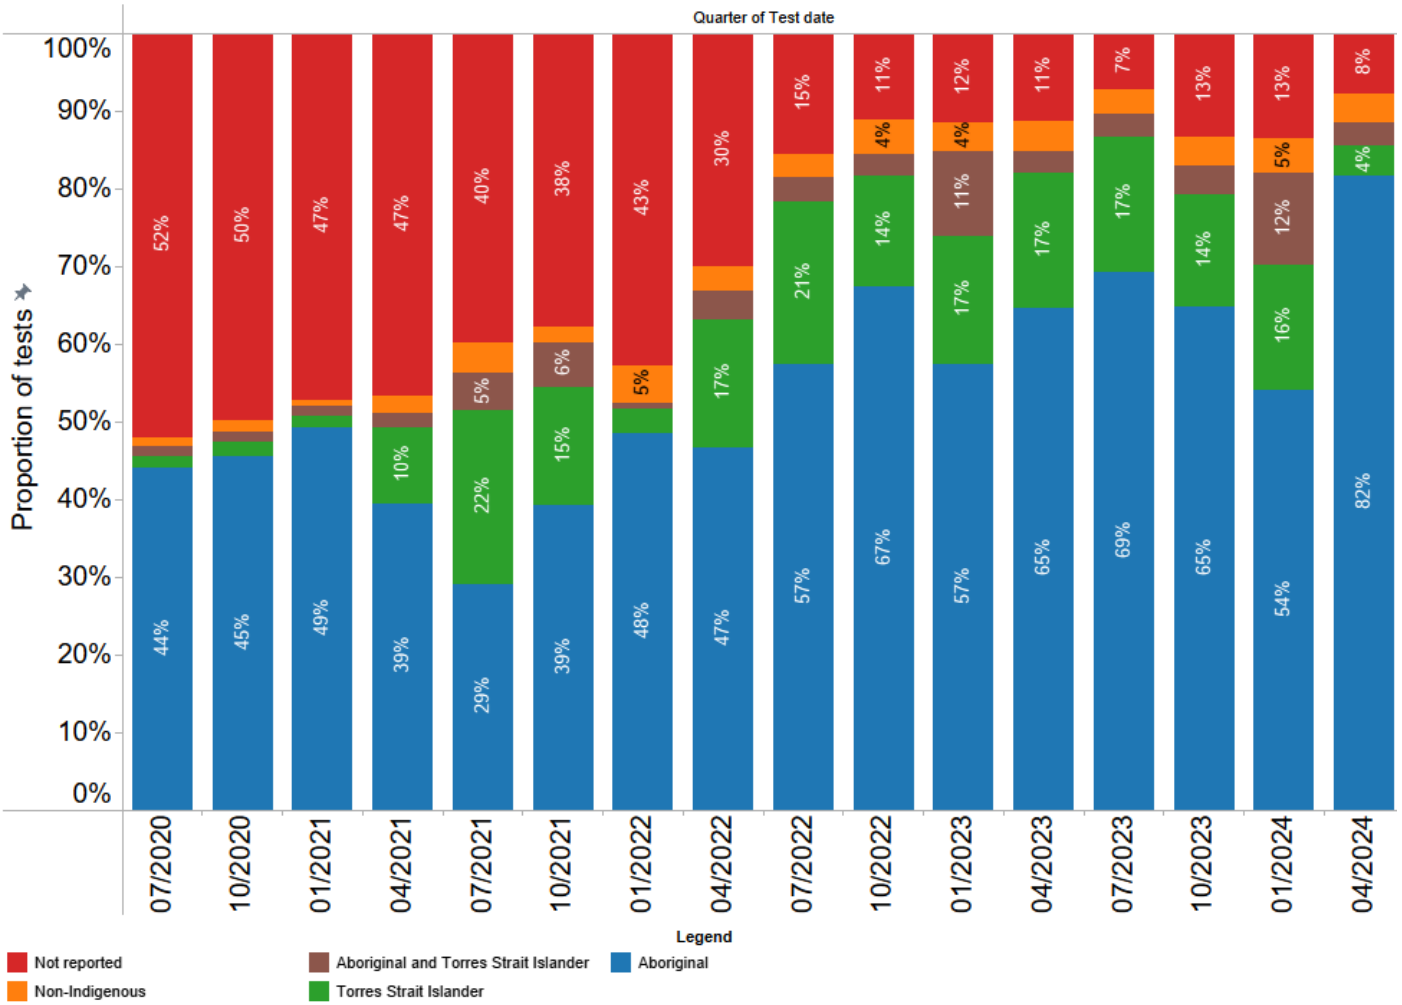

# TTANGO STI Point-of-Care Testing Program Report

July 2024

## c) Proportion of STI POC patient tests per month by Aboriginal and Torres Strait Islander status, Q3 2020 – Q2 2024

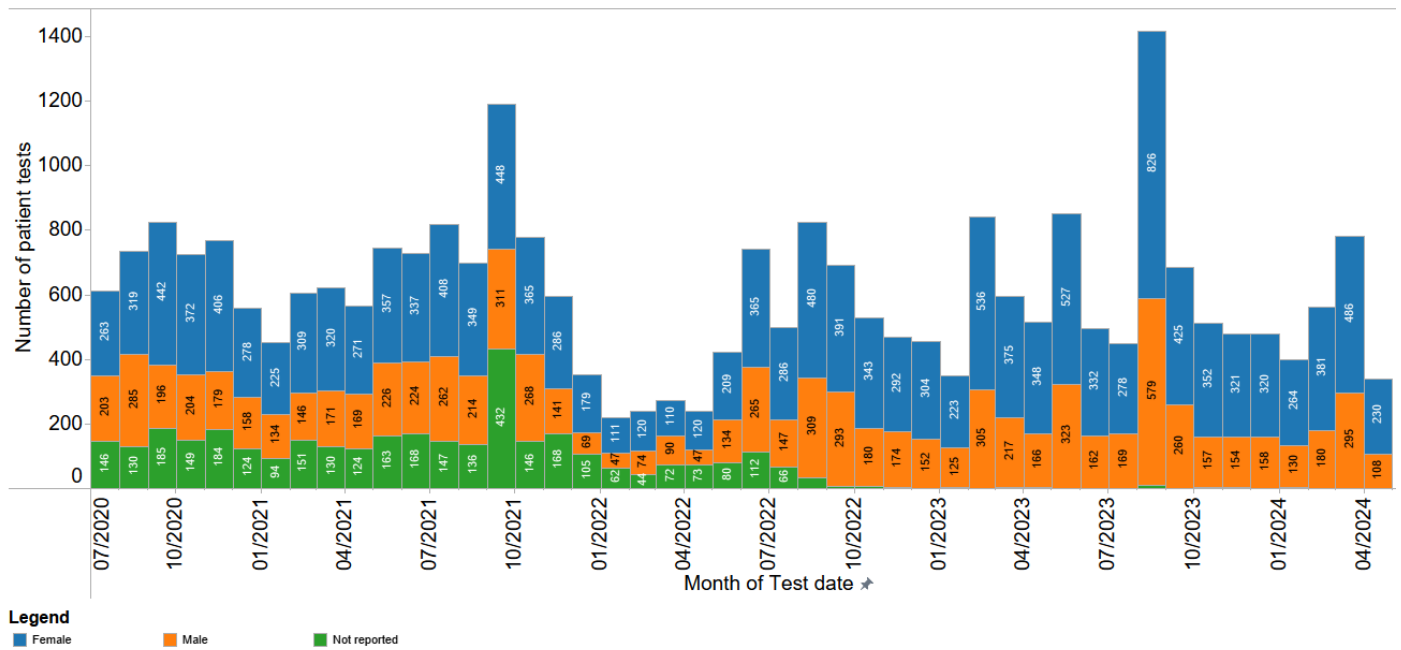

Note: The proportion of not reported has decreased over time following improved data capture across the network.

# TTANGO STI Point-of-Care Testing Program Report

July 2024

d) Number of STI POC patient tests per month by gender, Q3 2020 – Q2 2024

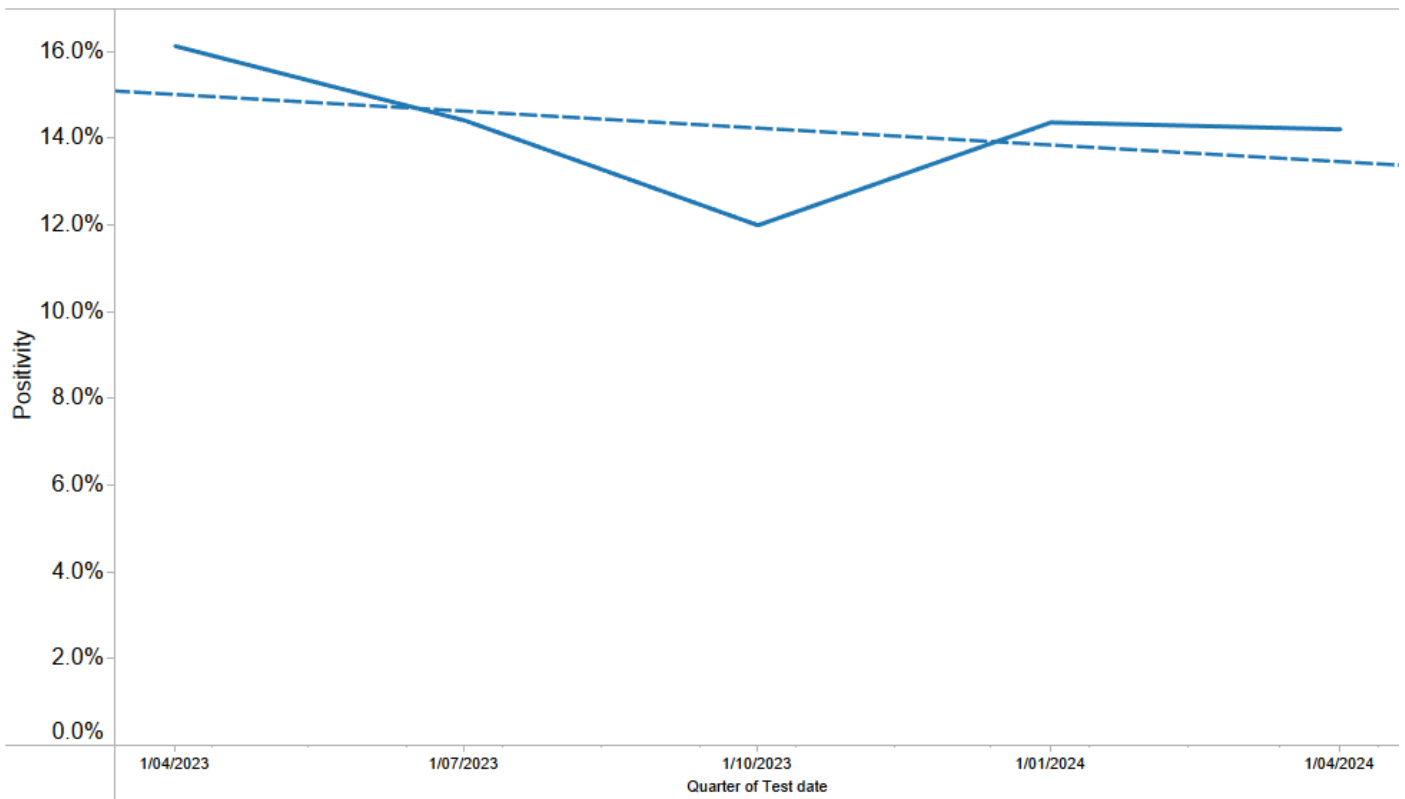

Note: The proportion of *not reported* has decreased over time following improved data capture across the network

## 4. Overview of STI POC patient test positivity for Q2 2023 to Q2 2024

### a) Overall CT/NG/TV POC test positivity, Q2 2023 – Q2 2024

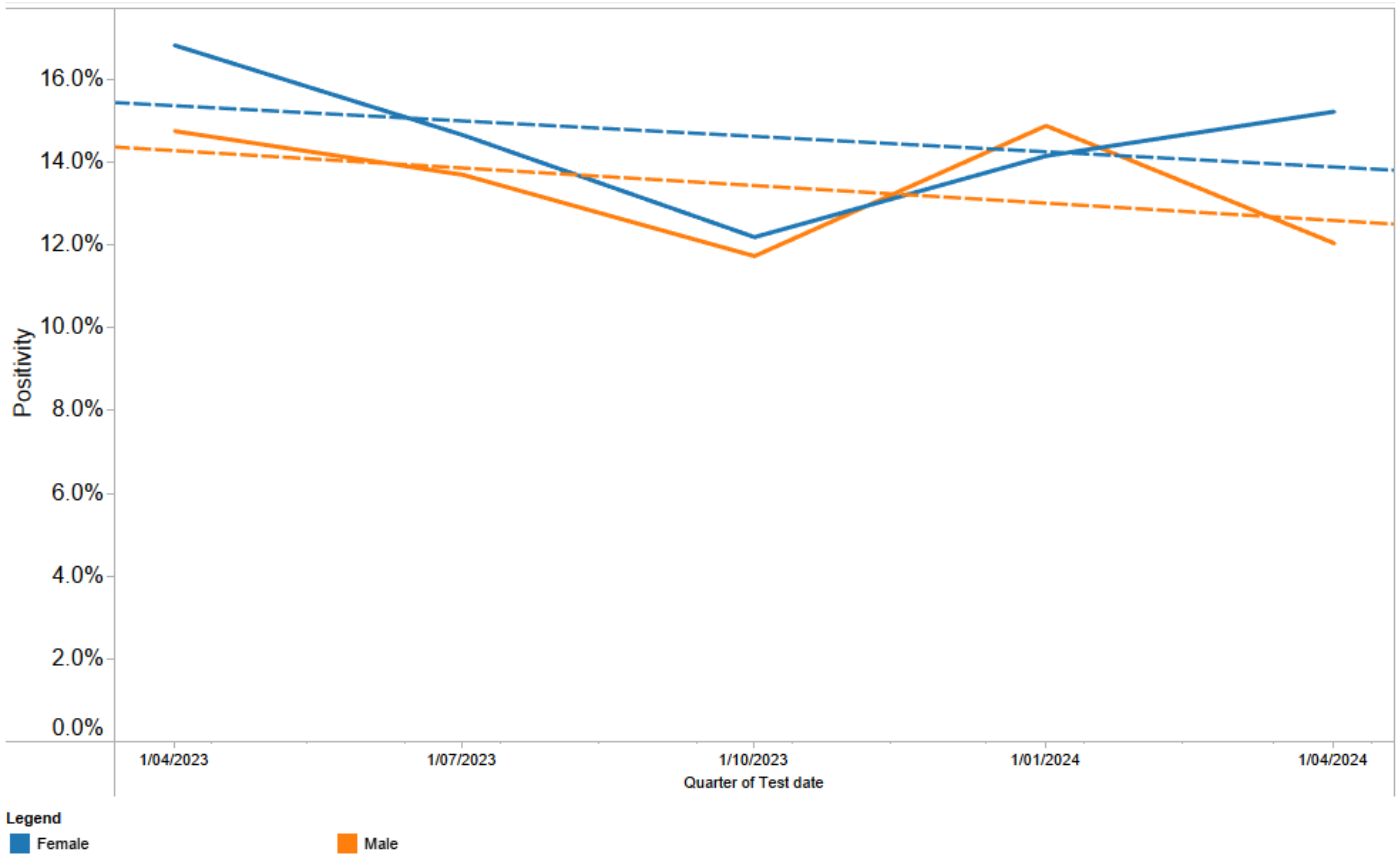

Note: Positivity is the number of positive patient tests divided by the number of patient tests. One CT/NG test is counted as two tests in the denominator. The dotted line represents the trend over time.

# TTANGO STI Point-of-Care Testing Program Report

July 2024

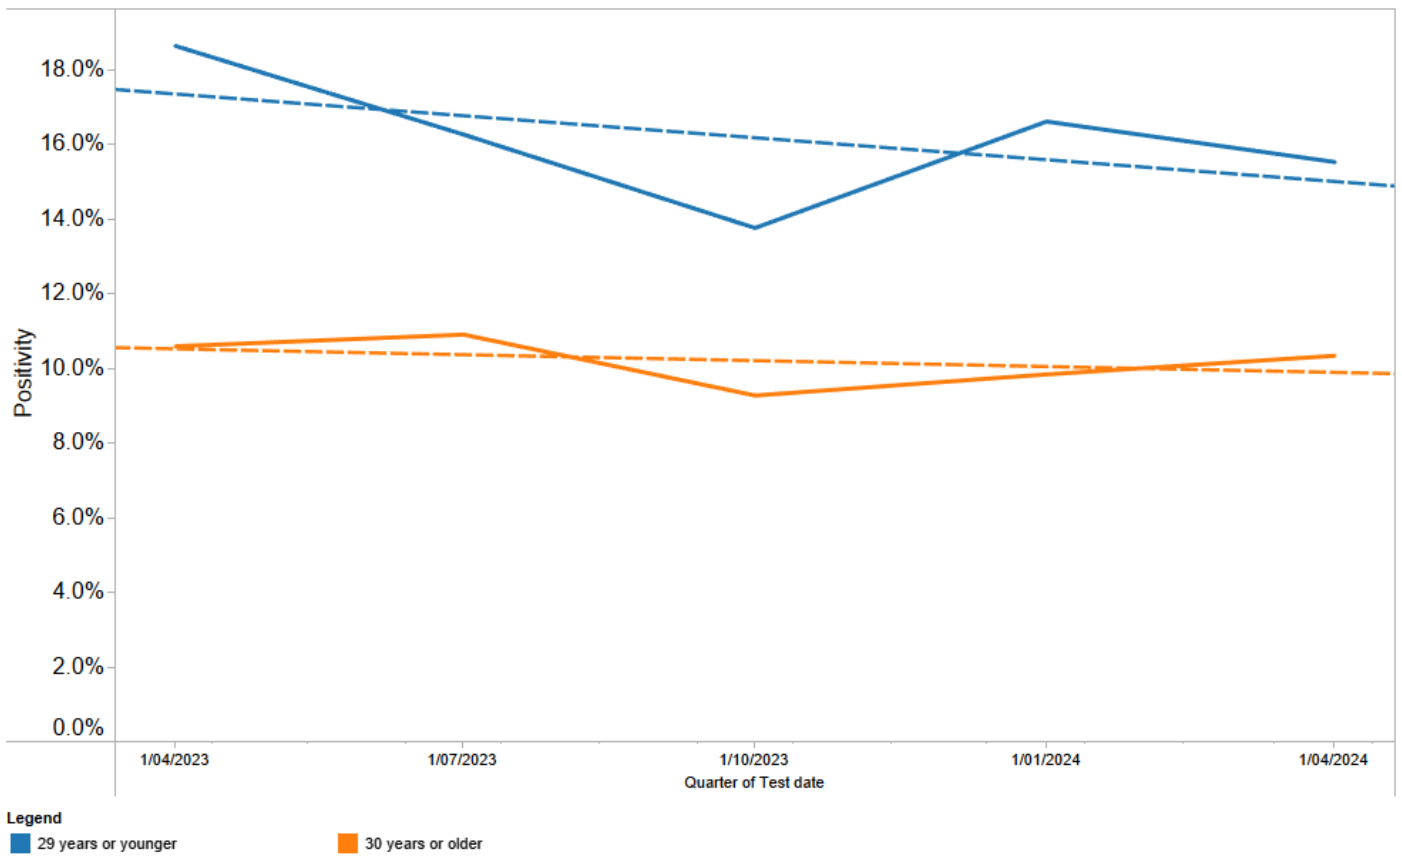

## b) CT/NG/TV POC test positivity by Gender, Q2 2023 – Q2 2024

Note: Positivity is the number of positive patient tests divided by the number of patient tests. One CT/NG test is counted as two tests in the denominator. The dotted line represents the trend over time for each respective population group.

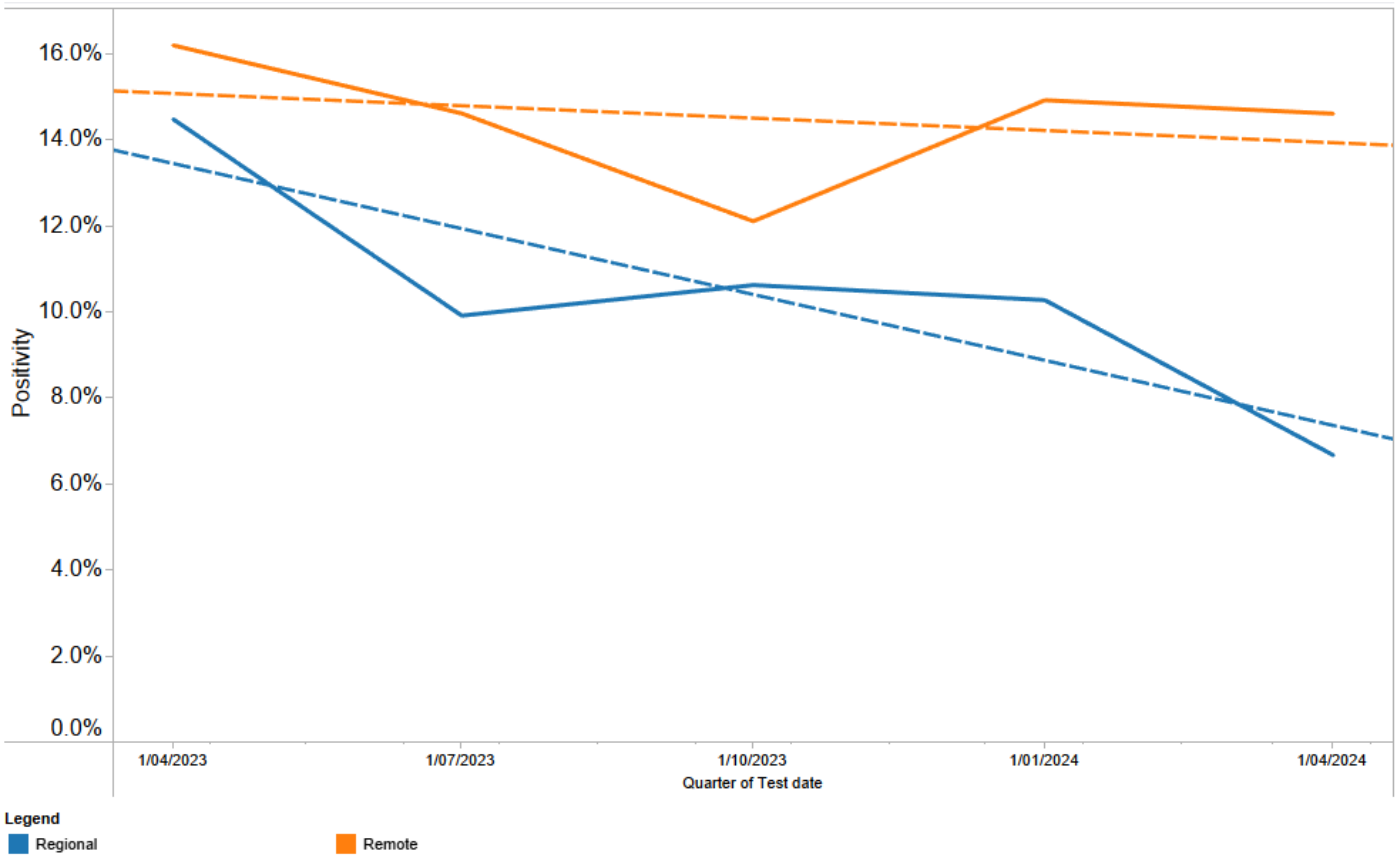

## c) CT/NG/TV POC test positivity by Age, Q2 2023 – Q2 2024

Note: Positivity is the number of positive patient tests divided by the number of patient tests. One CT/NG test is counted as two tests in the denominator. The dotted line represents the trend over time for each respective population group.

## d) CT/NG/TV POC test positivity by Remoteness, Q2 2023 – Q2 2024

\* Note: Positivity is the number of positive patient tests divided by the number of patient tests. One CT/NG test is counted as two tests in the denominator; variations in positivity over time by remoteness area may be due to increased enrolment in regional areas. The dotted line represents the trend over time for each respective population group.
